

Information fra Promissio om den lutherske kirke i Liberias hospital i Curran

Curran hospital blev startet i 1924 for at tilbyde holistisk behandling for syge. Det blev ødelagt under borgerkrigen, og er siden 2004 blevet genopbygget. Hospitalet har en Out Patient Ward, der ser omkring 10.000 patienter om året, en børneafdeling med ca. 800 indlæggelser om året, en obstetrikafdeling med ca. 800 fødsler om året, heraf ca. 30% ved kejsersnit, en medicinsk afdeling med ca. 675 indlæggelser om året, samt en jordemoder- og sygeplejeskole.

Hospitalet ligger ved en lille by i regnskoven, ca. 7 timers kørsel fra hovedstaden Monrovia.

Although a retired doctor would be ideal, any medical doctor with ten or more years of experience working in a multiple staff situation will do.

Job descriptions:

The Medical Director will:

- Supervise and coordinate all clinical activities of Curran Lutheran Hospital;
- Supervise and evaluate medical staff, including doctors, Pharmacists, Laboratory Technicians Nurses, and ward supervisors.
